PROFILE

I have over 20 years' experience as a Forensic Document Examiner and Handwriting Expert, spanning police laboratories, private practice and independent consultancy.

My career development involved close collaboration with a generation of senior experts who helped to define the field of document examination in the UK. Though the majority of these practitioners are no longer in active practice, the depth of experience, foundational methodologies and high standards they established remain central to my independent consultancy, which I founded in 2019.
